## CASTOR BEANS DON'T APPEAL AS CROP HERE

Government Wants Big Acre-  
age to Make Aeroplane  
Motor Oil

The Government has sent out an appeal to farmers all over the country to grow castor beans, from the beans of which the Government proposes to make aeroplane motor oil. Altogether the Government needs 100,000 acres of the beans. One of the circular letters has been received by the local exemption board.

The growing of castor beans has been tried in Orange county. True, it was many years ago, and the county has the castor beans with it yet. They are considered somewhat of a pest, and ranchers have been sorry indeed for that industry which in the early eighties was considered here as an industry with a future to it.

"Yes, we used to grow castor beans," said C. E. Parker of the Orange County Title Company. "The first two or three years we made good money out of them, but things got so there was no price, and we quit. The trouble was that there was but one market. After we got the beans sacked, we hauled them to Anaheim Landing, took them out in a lighter and shipped them to San Francisco, and the man there sent them back East."

"All of the Shaffer ranch on North Main street was planted to castor beans two or three years after Tom Shaffer bought it. There was quite a lot of them planted here. They grow all right here. In fact, they will become small trees if left alone. There are lots of difficulties in handling them. The bunches of bean pods have got to be cut at the right time, else they will pop open."

"We used to spread the bunches of pods out on a drying ground. As they dried they would pop open. One big trouble with growing them here is that if along comes a heavy fog or a rain, the pods glue up and won't pop open again no matter how hot the sun gets, and the separation of the beans from the pods becomes some job."

"In those days we all concluded that castor beans as a crop was mighty

hard on the land, and we think so yet."

"Another thing that is against castor beans here," said Frank Ey, who well remembers some good-sized castor bean acreages near Anaheim, "is that once you grow them you will be forever getting rid of them. There is lots of land in the country not valuable for other crops that ought to produce all the castor beans wanted. Our land here is much too valuable now and more productive for other crops needed by the Government to grow castor beans."

In talking of the possibility of castor beans as a crop, Dr. D. F. Royer, member of the exemption board, said that he believed that if a person were properly equipped he could make good money growing castor beans, ginseng, golden seal and nightshade. In this section. With the war on those products have gone up in price to drug-gists. Nightshade is considered a pest in this country. Once it gets its roots under an orange tree it is almost impossible to get rid of it.

S. W. Nau, secretary of the exemption board, said that it has been costing about \$5 a year to grub out an annual crop of castor beans that springs up along a row of eucalyptus trees adjoining an orchard at Tustin.

## MOTORISTS CAN CARRY JELLIES TO SOLDIERS

Chamber of Commerce Anxious to Co-operate In Getting Dainties to Camp

People making trips to Camp Kearny can be of great aid in taking delicacies to the Santa Ana boys stationed there if they will follow out a plan adopted by Secretary Metzgar of the Chamber of Commerce.

"Lots of women in Santa Ana want to send some of their home-made jams and jellies and canned fruit of some kind to the soldiers," said Metzgar today, "but they have no way to transport it to the camp. The Chamber of Commerce will act as an agent to get the two parties together."

"If people will notify this office before they expect to leave for the camp, we can arrange to send a small consignment of these fruits and jellies, and have them left at a specific place where the local boys can get them. Motorists who have room for a small box of this sort will be conferring a great favor on the soldiers and also upon the women here who wish to contribute to such a cause."

## SENDS BOGUS BILLS TO EASE CONSCIENCE

WASHINGTON, Jan. 9.—Secretary McAdoo yesterday received an anonymous letter containing \$108 in bills. "I am deeply repentant," wrote the sender, "for having defrauded the government out of this sum and now return it."

The money was sent to the treasury cashier for deposit in the conscience fund.

Today it was discovered the bills were counterfeit. Now Chief Moran of the secret service is looking for the man with a counterfeit conscience.

## MINNESOTA MINES DO SHARE IN WAR WORK

VIRGINIA, Minn., Jan. 10.—Six out of every ten shells hurled at the Germans during the coming year will be made from ore mined on the Mesabi ore range in northern Minnesota.

Mine operators today estimated the 1918 production of these mines at 45,360,760 tons, but 1,000,000 tons less than in the past year.

With the exception of a futile attempt by the I. W. W. to incite a strike the Minnesota mines have been free of all industrial unrest since the United States entered the war.

**AT THE BEGINNING OF THIS NEW BUSINESS YEAR** we wish to express our appreciation for the loyalty, goodwill and hearty support that our customers have given us during the past year and wish them the happiest and most prosperous year they have had.

We have changed our store arrangement and our entire system of handling our business. A system that will help us in getting out work faster and better and that we can give each one the best treatment and service that is possible.

During the past year which has been a very hard one on account of the shortage and poor delivery of good material and the scarcity of skilled mechanics, our business has increased very much. Besides an increase in our local business necessitating the employment of several more men, we have completed the Plumbing and Sheet Metal work on two school buildings, the Sheet Metal work on the San Bernardino County Buildings, Heating work on three large buildings and at present we are doing the Steam Heating on the Government Barracks at Ft. McArthur, San Pedro. We also have Heating and Plumbing contracts on several large buildings to be built.

So, to begin this New Year we have a better store arrangement, better system for our business, skilled mechanics and a sincere desire to give each one the best of service and treatment.

## Married in Los Angeles

A wedding of interest was solemnized in Los Angeles yesterday at 4 o'clock at the home of the bride, Miss Neva C. Basom, when she became the bride of Ernest F. Shade, of the advertising department of the Blade and very popular among his hosts of friends here.

The wedding ceremony was performed by Rev. Hodgkin of the Unitarian church, Los Angeles, the home being effectively decorated with graceful pepper boughs. The bride was carrying in a gown of white voile and carried a cluster of lilies of the valley. After congratulations, refreshments were served and Mr. and Mrs. Shade came home to a cosy cottage on West Eighteenth street, which the groom has been preparing for some months for his bride.

A number of the members of the Blade force went to the little home last night and prettily decorated it with flowers and left other expressions of their good will in honor of the coming of the bride and groom, who will be showered with the good wishes of their many friends.

An informal reception will be held at the Unitarian church tomorrow evening at 7:30 o'clock in honor of the new pastor, Rev. H. F. Pfeiffer and family. There will be an interesting program and light refreshments will be served. Members and their friends are invited.

"The Oldest Inhabitant" has spoken anent the rain season. Listen to what J. C. Mauerhan of Anaheim, has to say, as reported by the Gazette:

J. C. Mauerhan speaking of the lack of rainfall so far this season said the other day that he recalled the winter of 1884, when no rain fell until the latter part of January, and that the precipitation for the rest of the winter amounted to 35 inches, causing floods and considerable damage in many portions of Southern California. Mr. Mauerhan was at that time a member of the Los Angeles fire department and assisted in the rescue of many families in the flooded districts of that city. While he does not expect to see a repetition of these occurrences, he looks for plenty of rain, and believes the precipitation will begin in the near future.

WAR STAMP SALES IN  
SCHOOLS IS \$138.77

With only four of the schools of the city reporting this morning to Miss Beth Phillips, secretary of the high school, total war thrift stamp sales in the schools at noon today amounted to \$138.77.

This is the total for three and a half days, the campaign having hardly gotten into full swing as yet.

Of this amount Jefferson school children have purchased stamps to the amount of \$43.50, representing the savings of forty-seven children.

Parents are requested to impress on their children the purpose of the stamp sales—merely a loan to the Government to assist it in financing the war. Buy stamps instead of candy should be the motto of the children.

\$101 PER POUND FOR  
BUFFALO MEAT IN IOWA

F. J. Miller, baggage clerk at the Santa Fe station, is particularly proud of the way they are doing things back in Iowa, when it comes to boosting for the Red Cross. Miller has brought to the Register office a clipping from the Iowa City Herald giving the results of a Red Cross sale in that city. The proceeds from one day's sales of contributed articles were \$720.20. One dozen eggs were bid in at \$4.

The chief item of interest was a quarter of Buffalo meat contributed by C. J. Lenander. It weighed 147 pounds and brought \$245. The highest price paid per pound was \$37, and the lowest \$1.25. The articles offered at the sale ranged from live stock to handkerchiefs.

At Algona, the people went the citizens of Iowa City one better with \$10,000 realized from a Red Cross auction sale. Buffalo meat brought as high as \$101 per pound. Some fancy blooded hogs sold as high as \$160.

NEWPORT JETTY  
WITHSTANDS  
HIGH SEASProtection to Be Afforded By  
New Structure Already In  
Evidence at Beach

NEWPORT BEACH, Jan. 10.—The stiff northwest which blew Wednesday afternoon and evening did absolutely no damage to the jetty in course of construction here, as was feared it might. While the storm was at its height the tide was low, and the stone work at the end of the breakwater withstood all attacks of the fierce run of the sea.

Indicating the effect that the new jetty will have on the channel inlet, it is interesting to note that yesterday afternoon while the storm was raging at its fiercest rate, the Virginia, a large launch drawing over five feet of water, made the crossing over the bar into the bay. When it is considered that the tide was low at the time, and the sea churned up to a terrific extent, it is a wonderful attainment, showing the protection that the jetty is already giving to the entrance, and also indicating that the channel is already being scoured out by the force of the water, as was hoped would be the case.

FOUR MEMBERS SEC.  
DANIELS FAMILY IN  
COUNTRY'S SERVICE

WASHINGTON, Jan. 10.—Worth Bagley Daniels, second son of the secretary of the navy, was named a midshipman at Annapolis by Senator Overman of North Carolina last night. He is the fourth contribution to the navy from the immediate family of Mr. Daniels. His elder brother enlisted as a private in the marine corps early in the war. Mrs. Daniels spoke of her second son with a thrill of pride last night.

"He is named for my brother," she said. Her brother, Ensign Worth Bagley, was the only American naval officer killed in the Spanish-American war. Her other brother, Commander David Bagley, is now on his way home after the torpedoing of the United States destroyer Jacob Jones, which he commanded.

IMMIGRATION OFFICER

SAN FRANCISCO, Jan. 10.—P. A. McFarland, former record clerk at the Angel Island immigration station, now under indictment as a member of the Chinese smuggling ring, has made a detailed confession implicating one more immigration official, two San Francisco notaries and strengthening the cases against twenty other indicted persons, according to federal officials today. It is declared McFarland related that duplicate stamps of the immigration service were secured by members of the ring, that officials passed fraudulent photographs on passports of Chinese and that members of this ring were always given hearty receptions in Chinatown where they could secure groceries without paying for them.

SANTA ANA, CALIFORNIA, THURSDAY EVENING, JANUARY 10, 1918.

## SIGNED ACREAGE WILL BE 80 TO 90 PER CENT NORMAL

Factory Manager Optimistic  
As to Beet Planting For  
1918 Season

That some of the beet-sugar companies of California have signed or will sign up 100 per cent of the acreage of the past season, and that the general average will be between 80 and 90 per cent of the acreage of last season, is the statement of C. A. Johnson, manager of the two sugar factories at Santa Ana and one at Huntington Beach.

Johnson is very optimistic as to the acreage situation, and anticipates practically a normal run for the factories of the state.

"The situation is giving us no particular concern," declared Johnson. "We feel certain that we will have plenty of beets to slice during the 1918 season. With the acreage we will have, and the possibility of good crops, our tonnage should be nearly equal to past seasons. There is every probability that we will have plenty of rain, despite the fact that we have had none so far this season.

"The time for planting has not passed by any means, and good crops have been known to result from plantings as late as June.

"With the alkali lands, planting at this time is going on, and farmers of these kinds of lands should not delay planting. The man who plants early has a big advantage over the man who waits until after the first rains to sow his seed.

"Seed planted in the dry alkali lands will lie dormant until the first rains. Should the rains be late and heavy, the man who has failed to plant on these lands will have difficulty in getting on the ground to plant it in time to insure a good crop."

Johnson also says that the sugar companies have the labor situation well in hand, and that they are prepared for any emergency that might arise.

"We have a working agreement with the immigration bureau," said Johnson, "that will make it possible for us to import all the Mexicans we may need, and this without the delay we

## TRUTH TRIUMPHS

Santa Ana Citizens Testify For the Public Benefit

This truthful statement of a Santa Ana citizen, given in his own words, should convince the most skeptical about the merits of Doan's Kidney Pills.

If you suffer from backache, nervousness, sleeplessness, urinary disorders or any form of kidney ills, use a tested kidney medicine.

A Santa Ana citizen tells of Doan's Kidney Pills.

Could you demand more convincing proof of merit?

W. S. Lindsey, retired farmer, 1114 East Fourth St., Santa Ana, says:

"Some time ago my back gave out on me. Mornings I could hardly get out of bed, as every time I tried to move a sharp pain caught me in the small of my back. My kidneys acted too frequently and the kidney secretions were unnatural. I had such bad dizzy spells that I came near falling over. Doan's Kidney Pills relieved me and I felt better in every way."

This picture of an avenue of deodars is of particular interest in Orange county, for some day the state highway winding over the rolling foothills from El Toro to San Juan Capistrano will have an appearance something like this. Orange county has planted

doedars from Aliso creek southward to the mission town.

The above picture appeared on the cover page of the California Cultivator recently. The cut is owned by the California Nursery Co. of Niles, and the picture is of an avenue at Altadena. Concerning the deodar the California Cul-

tivator editorially had the following on December 22:

"Cedrus deodara, one of the most striking—and the most beautiful—trees on earth, especially in the springtime when the silky and silvery tassels are reflecting the light from every angle. A hardy tree, if planted on the

mountains and neglected it still clings to life and responds quickly when given better treatment. A native of the Himalayas, it has taken to California conditions with as much satisfaction as the eucalyptus from Australia. The tree does not do well in northern and eastern states.

The avenue shown on the cover

is, so far as we know, the longest and finest of any planted to this tree, and the Cultivator camera has been used to bring to our readers a few of these wonderful trees. We are not certain, but we believe these trees were secured from the old-time nurseries of John Rock, now the California Nursery Company."

## "GIVE GOD SQUARE DEAL" PLEADS DR. BIEDERWOLF IN SERMON "TOMORROW"

"Give God a square deal," pleaded Evangelist W. E. Biederwolf, in his address last night upon the subject, "Tomorrow." Excuses given for postponing taking a stand for Christ and answers to those excuses formed the basis for the evangelist's sermon.

The wintry wind that blew from the west last night had a discouraging effect on the crowd, and the audience was not as large as it has been on other occasions. However, although the weather was cold outside, the people were warm-hearted within, and their hearts were touched by the message from the evangelist. A large number of people came forward for the first time to dedicate their lives to the service of the Master at the conclusion of the sermon.

Kansas, Iowa There

Since delegations began their attendance in special bodies last night, Kansas competed with the Iowans in seeing which state would boast the largest representation. The heavy winds outside seemed to make the Kansas delegation very much at home, but they were not to be outdone by the Iowa natives, and the two delegations were about equal in size. "Sunny Jim" Heaton had them stand and sing the chorus of "Tell It Wherever You Go," and everybody was in fine spirits following the enthusiastic song service. Tonight Minnesota will compete with Ohio in setting out a big crowd.

Dr. Biederwolf will preach tonight on the subject, "The Deity of Jesus Christ." The subject is one which will be of interest to the thinking man and woman, and especially to any who have had any doubts on this subject. Dr. Biederwolf says that he has some very interesting thoughts to present along this line, and he urged that the people of Santa Ana come to the tabernacle to hear what he has to say.

In his sermon last night, Dr. Biederwolf preached on the theme "Tomorrow," the folly of postponement. He told of the reasons that men give for postponing the decision to live the Christian life.

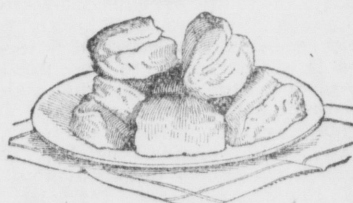

The evangelist urged his hearers to turn from their sins and not to longer postpone their decisions. "Procrastination has been called the thief of time," declared Dr. Biederwolf, "but it is more than that. It robs heaven of its fairest jewels and makes hell of the high capital of immortal souls. Once let the devil rock you to sleep in the cradle of tomorrow and you'll not need your nurse to wake you up in perdition!"

The arguments given for postponement of decision for the Christian life were answered by Dr. Biederwolf. The preacher then gave two brief reasons why a man should say "today" and not "tomorrow."

I want to give now two brief reasons why you should say "today" and not "tomorrow."

1. You ought to say "today," you ought to say "now," because it's the only way to be honorable with God. You are under obligations to God and you ought to meet that obligation just as soon as you possibly can, and not try to satisfy God by telling Him you'll meet it some other time. That's mean in business, but in all frankness, in this matter I think it is the most contemptible thought that ever stirred a human breast. If a man were to come into your store and contract a debt and then he were to come to you some time later and say, "I acknowledge the obligations; the debt is mine, for I made it, and I can pay it, I am able to pay it, but I guess I won't pay it now; I'll pay it next month," and when the month is expired, he would come and say the

Flavor  
Purity  
Economy

All shortenings are short. Some are shorter. That means they are richer.

Cottolene is a particularly short shortening. It sets the highest possible standard for purity and richness. You use one-third less of Cottolene than you ordinarily use of other shortenings. The results are perfectly delicious.

### RECIPE

#### Rolls

2 cups pastry flour 1 level tablespoon  
 1/2 teaspoon salt 1 level teaspoon  
 4 level teaspoons 1 cup cream (or you can use half milk and half cream)

Sift together flour, baking powder and salt; rub in Cottolene with fingertips. Add cream and mix with knife to soft dough. Roll 1/2 inch thick. Cut with biscuit cutter, brush edges with milk and fold as Parker House Rolls. Press edges together, brush top of rolls with milk. Bake on buttered sheet in hot oven fifteen minutes.

same thing. "Oh, yes, the debt is all right, I acknowledge it, and I can pay it, but I guess I'll not pay you, I'll pay you next month," and when the next month came, if he were to come again and say, "Oh, yes, I can pay you, I'll pay you next month," and again if he were to come again and again, in a way like that, you would not trust that man for another dollar as long as you lived.

Now I want you to deal as honestly with God as you expect other people to deal with you, and you will if you are a thoroughly honest man or woman.

2. The second reason I'll put in the words of Scripture, Proverbs, 27:1, "Boast not thyself of tomorrow, for thou knowest not what a day may bring forth." It may bring forth death. There are some sitting here who have been putting off this decision from day to day and if you give an honest testimony tonight you would say, "It seems to be growing harder as I grow older."

If you are here tonight and past twenty, your chances of being saved are growing very small indeed. If you are past forty, your chances are almost as eighty thousand to one against you. If you are past sixty and still outside of the kingdom of Christ, you are almost as good as doomed to night, yet God can save you and I pray God that you may arouse yourself and act before it is eternally too late. How many of you will say, "Pray for me tonight! I do have a desire to be saved. I do want to know Christ and I want you to pray for me now!"

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

## WINTERSBURG

SPRAINED ANKLE  
RESULTED FROM  
WOMAN'S FALL

Mrs. A. Ruoff of Wintersburg Slipped In Darkness Sunday Evening

WINTERSBURG, Jan. 10.—Mrs. A. Ruoff is nursing a badly wrenched ankle this week, sustained Sunday evening when she missed her footing and fell while crossing the small drainage ditch in front of her home. The accident happened as the family was starting to Wintersburg to attend evening church services. As it was quite dark at the time it was impossible for Mrs. Ruoff to see her way to the road where Mr. and Mrs. Ray Moore and family were waiting for them. It was thought at first that the ankle was broken but it luckily proved to be sprained instead.

Miss Hetty Murdy left on Friday of last week for Sanford, Ariz., following a month's vacation spent at her home here. Miss Murdy's school was closed awaiting the completion of the new school building which is now completed and school opened Monday of this week.

The Murdy family is about settled in its new location in close proximity to the store, which is proving much handier than going to and from the ranch daily to attend to the business there. The house, which was located directly back of the store building, was moved up beside it and facing the main street and the moving of the household effects began immediately the change was made.

Ben Aley, a cousin of Mrs. J. J. Graham, is here from Cedar Vale, Kan., looking out for a location for his future home. Mr. Aley arrived Wednesday of last week and after a few days spent at the Graham home, left for a short stay in San Diego. He is attack of la grippe the past week.

Orange seconds win snappy contest from Fullerton

ORANGE, Jan. 10.—The Orange High School second team tightened its grip on the county basketball title Tuesday afternoon by defeating Fullerton seconds, 38 to 20.

The locals outplayed the visiting Fullerton scribs at every turn and had possession of the ball most of the time. Except for a weakness on locating the goal the Orange score would have piled up to an alarming figure.

Wheeler, Thompson, Rydberg, Sweet and Gruenewald all played hard, aggressive games and carried the brunt of the work. Rydberg displayed the best goal eye although Nelson was ringing the basket frequently in the first half. Thompson also caged several spectacular shots.

The Fullerton men were outweighed and outtraced in most positions and lacked the ability of the Orange boys. They worked hard under the handicap but never threatened to take the lead after the first few minutes. Roberts, former Orange boy, played a nice game at forward in the last half and was responsible for the better showing his team made in that period. The sideline experts insisted loudly that he learned his "class" before he went to Fullerton. Roberts formerly ornamented the O. U. H. S. five-weight team but since leaving here has stretched out considerably.

Patients will find the Private Hospital at 209 Edgewood Road, a pleasant place. Experienced nurse in charge. Phone 654-J2.

# CARTER GIVES AN OUTLINE OF INCOME TAXES

About 150 Men Hear His Talk and Ask Him Questions About the Law

To an audience of about 150, nearly all men, John P. Carter, internal revenue collector, last night explained the purpose, effect and requirements of the war income tax law, under which reports must be made by those concerned before March 1 of this year.

Carter pointed out that the old law affected a comparatively few people. The new law means that in the United States reports of income must be made by no less than 6,863,000 persons. Every unmarried man with an income of \$1000 must report. Every married man with an income of \$2000 must report. Income means "from any source whatever."

The old income tax law is not repealed. Under that law collections will be made upon incomes of over \$3000 and \$4000 just as though the new law had not been passed.

"It is every citizen's duty to know the law," said Carter. "The United States does not give notice of the passage of a law. Therefore, it is your duty and mine to see that information concerning the necessity of making these reports is given to men and women who are concerned. Heavy penalties must be imposed upon those who fail to report. As collector I have no choice in the matter. Those penalties will be imposed."

"Blanks can be secured at my office in Los Angeles or at the temporary office established at your courthouse, in charge of W. A. Cornelius. We are asking bankers and teachers to help in filling out these blanks. You may know what a large number of men are concerned when I tell you that the man who works steadily at \$3.50 a day and is unmarried has to make a report."

"The unmarried man who is supporting a family reports if his income is \$1000, but he does not have to pay

a tax unless his income is over \$2000 net.

"The salary of state, county and city officials are not taxable by the Federal Government. A United States supreme court has ruled that these salaries cannot be taxed because they are taxable by the Federal Government might be able to run the states out of business by making their offices undesirable. The salary paid a school teacher is exempt."

"You are allowed to charge off bad debts. Dividends received from a corporation that has paid an income tax must be reported upon your statement, but they will be reduced in determining your net income. That is, you will pay no tax on those dividends."

"You are to account for income when it is received. That is, if you earn a commission in September and it is not paid until January, report that as a receipt for the year in which January lies."

"These reports are based upon receipts for the year 1917.

"If the income tax doesn't do anything else, it will start a lot of people to keeping books. That is a mighty fine thing, for people will then realize what they have been doing with their money. If they did not keep books in 1917, they must make a report as best they can, and they ought to start in right now keeping books for 1918. Keeping books with most of us is a very simple thing and it ought to be done."

Dozens of questions were asked of Collector Carter by those present, and numerous points were brought out in that way. Locally, those who have reports to make can best reach results in their own individual cases by going direct to Cornelius' office at the courthouse where he will be each day from 9 a. m. to 4:30 p. m., excepting Sundays and Saturday afternoons, until February 13, when he will go to Orange, where he will be until March 1.

**HAD THE GRIP THREE WEEKS**

With January comes lagrippe. Lingering colds seem to settle in the system, causing one to ache all over, feel feverish and chilly, tired, heavy and drooping. Mrs. Lizzie Tyles, Henderson, Ky., writes, "My daughter had lagrippe for three weeks. I had the doggie for three weeks and none of it did any good. I gave her Foley's Honey and Tar and now she is all right. I have told all my friends about it." Insist on the genuine Foley's Honey and Tar. Rowley Drug Co.

# BEEES HAVE BEEN MAKING HONEY IN WINTER

Inspector Pleasants Says Eucalyptus Blossoms Are Helping Out

Down in the valley the bees are making honey.

In January the bees are piling up combs filled with honey.

These statements are likely to be looked upon with suspicion by an easterner, but they are true.

"The bees in the valley have found the weather warm enough to keep working industriously," said County Bee Inspector J. E. Pleasants, "and the winter blossoms seem to have more than the usual amount of honey in them. That is especially true of the eucalyptus blossoms, which are providing a good deal of honey."

"Here, in ordinary years, we figure on the bees being able to take care of themselves until about in March, when they have to be fed. Just now the bees are not breeding, and their requirements are not so great. When they begin to breed in March they will have to be fed. We have been buying just the regular sugar and making a syrup out of it. We have tried the left-over molasses at the sugar factories, but it is not sweet enough to attract the bees. They won't touch it."

"Of course, our honey crop in Orange county is going to depend upon the rains and the late spring and early summer."

While the Orange county honey crop in 1917 was only about half what is considered a normal crop, the apiculturists got about double the usual price for honey.

In addition to the general honey crop of the country being smaller than in 1916, the output in California was short as well in 1917, one of the important reasons for this being the blasting hot wave of last June, says the California Fruit World. As against 1916's output of honey in California of 8,100,000 pounds, which was composed of 7,500,000 pounds of extracted and 600,000 pounds of comb, the 1917 output in this state is estimated as being a total of 6,240,000 pounds, of which 6,000,000 pounds were extracted and 240,000 pounds of comb. This shows the smallest total output of honey in California since 1913.

The shortage was more accentuated in some localities than in others, and in some grades and kinds than in others. For instance, sage honey in Southern California was very short, and while a little larger in proportion, still very short of normal in the San Joaquin Valley. Some districts in the latter section turned out but a very small proportion. The crop as a whole for the state, taking all grades and varieties, is apparently about 25 per cent below normal.
